BUZWAIR		Supersedes : 0 / 0 / 0
2-2	1% Oxygen in Helium	SDS_2-21% O2//HE
	2.2 : Non-flammable, non- toxic gases	
Warning SECTION 1. Identification o	f the substance/mixture and of the company/undertak	ing
1.1. Product identifier		
Trade name	: 2-21% Oxygen in Helium	
SDS Nr	: SDS_2-21% O2//HE	
1.2. Relevant identified use	es of the substance or mixture and uses advised again	<u>ist</u>
Relevant identified uses	: Industrial and professional. Perform risk assessment pri Test gas/Calibration gas. Laboratory use. Contact suppl	
1.3. Details of the supplier	of the safety data sheet	
Company identification	: BUZWAIR INDUSTRIAL GASES FACTORIES PO Box 319 Doha Qatar	
1.4. Emergency telephone	number	
Emergency telephone num		
SECTION 2. Hazards identif	ication	
2.1. Classification of the su	ubstance or mixture	
Hazard Class and Category C	ode Regulation EC 1272/2008 (CLP)	
Physical hazards <u>Classification EC 67/548 or E</u>	: Gases under pressure - Compressed gas - Warning - (C C 1999/45	CLP : Press. Gas) - H280
2.2. Label elements	: Not classified as dangerous substance / mixture.	
Labelling Regulation EC 1272	2/2008 (CLP)	
Hazard pictograms	$\langle \cdot \rangle$	
Hazard pictograms code	: GHS04	
Signal word	: Warning	
Hazard statements Precautionary statements		ated.
- Storage 2.3. Other hazards	: P403 - Store in a well-ventilated place.	
2.3. UIICI 11020103	· None	

: None.

SECTION 2. Hazards identification (continued)

SECTION 3. Composition/information on ingredients

3.1. Substance / 3.2. Mixture

Mixture.

Substance name		Contents	CAS No EC No Index No Registration no	Classification(DSD)	Classification(CLP)
Oxygen	·	Between 2 and 21 %	7782-44-7 231-956-9 008-001-00-8 *1	O; R8	Ox. Gas 1 (H270) Press. Gas Compressed (H280)
Helium	:	balance %	7440-59-7 231-168-5 * 1	Not classified (DSD)	Press. Gas Compressed (H280)

Contains no other components or impurities which will influence the classification of the product.

* 1: Listed in Annex IV / V REACH, exempted from registration.

* 2: Registration deadline not expired.

* 3: Registration not required: Substance manufactured or imported < 1t/y.

Full text of R-phrases see section 16. Full text of H-statements see section 16.

SECTION 4. First aid measures

4.1. Description of first aid measures

- Inhalation	: Adverse effects not expected from this product.
- Skin contact	: Adverse effects not expected from this product.

- Eye contact : Adverse effects not expected from this product.
- Ingestion : Ingestion is not considered a potential route of exposure.

4.2. Most important symptoms and effects, both acute and delayed

- : No effect on living tissue.
 - Refer to section 11.

4.3. Indication of any immediate medical attention and special treatment needed

: None.

SECTION 5. Firefighting measures

5.1. Extinguishing media

- Suitable extinguishing media : Water spray or fog.
- Unsuitable extinguishing media : Do not use water jet to extinguish.

5.2. Special hazards arising from the substance or mixture

Specific hazards	: Supports combustion. Exposure to fire may cause containers to rupture/explode.
5.3. Advice for fire-fighters	
Specific methods	If possible, stop flow of product. Use fire control measures appropriate for the surrounding fire. Exposure to fire and heat radiation may cause gas receptacles to rupture. Cool endangered receptacles with water spray jet from a protected position. Prevent water used in emergency cases fro

Use water spray or fog to knock down fire fumes if possible.

SDS_2-21% O2//HE

SECTION 5. Firefighting measures (continued)

 Special protective equipment for fire
 : Standard protective clothing and equipment (Self Contained Breathing Apparatus) for fire

 fighters
 : Standard EN 469 - Protective clothing for firefighters.

 Standard EN 469 - Protective clothing for firefighters.
 Standard - EN 659: Protective gloves for

 firefighters.
 Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full

 face mask.
 Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full

SECTION 6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.2. Environmental precautions

: None.

6.3. Methods and material for containment and cleaning up

: None

6.4. Reference to other sections

: See also sections 8 and 13.

: Try to stop release.

SECTION 7. Handling and storage

7.1. Precautions for safe handling

Safe use of the product	 Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Only experienced and properly instructed persons should handle gases under pressure. The substance must be handled in accordance with good industrial hygiene and safety procedures. Do not smoke while handling product. Ensure the complete gas system was (or is regularily) checked for leaks before use. Consider pressure relief device(s) in gas installations.
Safe handling of the gas receptacle	 Refer to supplier's container handling instructions. Do not allow backfeed into the container. Protect cylinders from physical damage; do not drag, roll, slide or drop. When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. If user experiences any difficulty operating cylinder valve discontinue use and contact supplier. Never attempt to repair or modify container valves or safety relief devices. Damaged valves should be reported immediately to the supplier. Keep container valve outlets clean and free from contaminants particularly oil and water. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Close container valve after each use and when empty, even if still connected to equipment. Never attempt to transfer gases from one cylinder/container to another. Never use direct flame or electrical heating devices to raise the pressure of a container. Do not remove or deface labels provided by the supplier for the identification of the cylinder contents. Containers should be stored in the vertical position and properly secured to prevent toppling.
7.2. Conditions for safe storage, in	cluding any incompatibilities
	 Keep container below 50°C in a well ventilated place. Observe all regulations and local requirements regarding storage of containers. Containers should not be stored in conditions likely to encourage corrosion. Containers should be stored in the vertical position and properly secured to prevent toppling. Stored containers should be periodically checked for general condition and leakage. Container valve guards or caps should be in place. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible materials.

SDS_2-21% O2//HE

SECTION 7. Handling and storage (continued)

7.3. Specific end use(s)

: None.

SECTION 8. Exposure controls/personal protection

8.1. Control parameters	
DNEL: Derived no effect level (Workers)	
	: No data available.
DMEL: Derived mimimum effect level (Workers)	
	: No data available.
PNEC: Predicted no effect concentration	
	: No data available.
8.2. Exposure controls	
8.2.1. Appropriate engineering controls	: Systems under pressure shoud be regularily checked for leakages. Provide adequate general and local exhaust ventilation. Consider work permit system e.g. for maintenance activities.
8.2.2. Individual protection measures, e.g. personal protective equipment	: A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered: PPE compliant to the recommended EN/ISO standards should be selected.
Eye/face protection	: Wear safety glasses with side shields. Standard EN 166 - Personal eye-protection.
Skin protection	
- Hand protection	: Wear working gloves when handling gas containers. Standard EN 388 - Protective gloves against mechanical risk.
- Other	: Wear safety shoes while handling containers. Standard EN ISO 20345 - Personal protective equipment - Safety footwear.
 Respiratory protection 	 Self contained breathing apparatus (SCBA) or positive pressure airline with mask are to be used in oxygen-deficient atmospheres. Standard EN 137 - Self-contained open-circuit compressed air breathing apparatus with full face mask.
 Thermal hazards 	: None necessary.
8.2.3. Environmental exposure controls	: None necessary.

SECTION 9. Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	
Physical state at 20℃ / 101.3kPa	: Gas.
Colour	: Mixture contains one or more component(s) which have the following colour(s): Colourless.
Odour	 There may be no odour warning properties, odour is subjective and inadequate to warn of overexposure. Mixture contains one or more component(s) which have the following odour(s): Odourless.
Odour threshold	: Odour threshold is subjective and inadequate to warn for overexposure.
pH value	: Not applicable for gas-mixtures.
Molar mass [g/mol]	: Not applicable for gas-mixtures.

SECTION 9. Physical and chemical properties (continued)

	Melting point [°C]	: Not applicable for gas-mixtures.		
	Boiling point [°C]	: Not applicable for gas-mixtures.		
	Flash point [°C]	: Not applicable for gas-mixtures.		
	Evaporation rate (ether=1)	poration rate (ether=1) : Not applicable for gas-mixtures.		
	Flammability range [vol% in air] : Not applicable for gas-mixtures.			
	Vapour pressure [20℃]	: Not applicable.		
	Relative density, gas (air=1)	: Lighter or similar to air.		
	Solubility in water [mg/l]	 Solubility in water of component(s) of the mixture : Helium : 1.5 Oxygen : 39 		
	Partition coefficient n-octanol/water [log Kow]	: Not applicable for gas-mixtures.		
	Viscosity at 20℃ [mPa.s]	: Not applicable.		
	Explosive Properties	: Not applicable.		
	Oxidising Properties	: None.		
<u>9.2.</u>	Other information			
	Other data	: None.

SECTION 11. Toxicological information

11.1. Information on toxicological effects

Acute toxicity	:	No toxicological effects from this product.
Rat inhalation LC50 [ppm/4h]	:	No data available.
Skin corrosion/irritation	:	No known effects from this product.
Serious eye damage/irritation	:	No known effects from this product.
Respiratory or skin sensitisation	:	No known effects from this product.
Carcinogenicity	:	No known effects from this product.
Germ cell mutagenicity	:	No known effects from this product.
Toxic for reproduction : Fertility	:	No known effects from this product.
Toxic for reproduction : unborn child	:	No known effects from this product.
STOT-single exposure	:	No known effects from this product.
STOT-repeated exposure	:	No known effects from this product.

SECTION 11. Toxicological information (continued)

Aspiration hazard

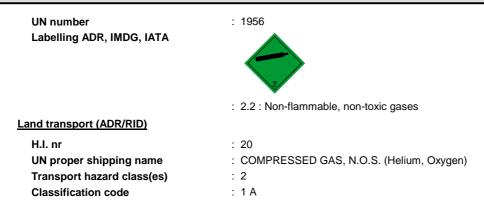

: Not applicable for gases and gas-mixtures.

SECTION 12. Ecological information

<u>12.1.</u>	Toxicity	
		: No ecological damage caused by this product.
	EC50 48h - Daphnia magna [mg/l]	: No data available.
	EC50 72h Algae [mg/l]	: No data available.
	LC50-96 h - fish [mg/l]	: No data available.
<u>12.2.</u>	Persistence and degradability	
		: No data available.
<u>12.3.</u>	Bioaccumulative potential	
		: No data available.
<u>12.4.</u>	Mobility in soil	
		: No data available.
<u>12.5.</u>	Results of PBT and vPvB asses	ssment
		: Not classified as PBT or vPvB.
<u>12.6.</u>	Other adverse effects	
	Effect on ozone layer	: None.
	Effect on the global warming	: No known ecological damage caused by this product.
SECT	ION 13. Disposal consideration	S
13 1	Waste treatment methods	

	: May be vented to atmosphere. Do not discharge into any place where its accumulation could be dangerous. Refer to the EIGA code of practice Doc.30 "Disposal of Gases"", downloadable at http://www. eiga.org for more guidance on suitable disposal methods. Contact supplier if guidance is required.
List of hazardous wastes	: 16 05 05: Gases in pressure containers other than those mentioned in 16 05 04.
13.2. Additional information	
	: None.

SECTION 14. Transport information

Page : 7 Revised edition no : 0

Date : 6 / 13 / 2016

2-21% Oxygen in Helium

SDS_2-21% O2//HE

SECTION 14. Transport information (continued)

Packing Instruction(s)	: P200
Tunnel Restriction	: E : Passage forbidden through tunnels of category E.
Environmental hazards	: None.
Sea transport (IMDG)	
Proper shipping name	: COMPRESSED GAS, N.O.S. (Helium, Oxygen)
Class	: 2.2
Emergency Schedule (EmS) - Fire	: F-C
Emergency Schedule (EmS) - Spillage	: S-V
Packing instruction	: P200
IMDG-Marine pollutant	: No
<u>Air transport (ICAO-TI / IATA-DGR)</u>	
Proper shipping name (IATA)	: COMPRESSED GAS, N.O.S. (Helium, Oxygen)
Class	: 2.2
Passenger and Cargo Aircraft	: Allowed.
Packing instruction - Passenger and Cargo Aircraft	: 200
Cargo Aircraft only	: Allowed.
Packing instruction - Cargo Aircraft only	: 200
Special precautions for user	
	 Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers: Ensure there is adequate ventilation. Ensure that containers are firmly secured. Ensure cylinder valve is closed and not leaking. Ensure valve outlet cap nut or plug (where provided) is correctly fitted.

SECTION 15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation	
Seveso directive 96/82/EC	: Not covered.
National legislation	
National legislation	: Ensure all national/local regulations are observed.
15.2. Chemical safety assessment	
	: A CSA does not need to be carried out for this product.

2-21% Oxygen in Helium

SDS_2-21% O2//HE

Indication of changes	: Revised safety data sheet in accordance with commission regulation (EU) No 453/2010.
Training advice	: Receptacle under pressure.
List of full text of R-phrases in section 3.	: R8 : Contact with combustible material may cause fire.
List of full text of H-statements in section 3.	: H270 - May cause or intensify fire; oxidiser. H280 - Contains gas under pressure; may explode if heated.
Further information	: Classification in accordance with calculation methods of regulation (EC) 1272/2008 CLP / (EC) 1999/45 DPD. This Safety Data Sheet has been established in accordance with the applicable European Union legislation.
DISCLAIMER OF LIABILITY	 Before using this product in any new process or experiment, a thorough material compatibilit and safety study should be carried out. Details given in this document are believed to be correct at the time of going to press. Whils proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.

End of document
